I Miss You

Kylie Minogue

As soon as I wake up I'm starting to think of only you I read all your letters Over and over and over I go to the mirror Next to the photograph of you I know it sounds crazy It brings me much closer to you I know you'll be back one day I only behave this way 'Cos I miss you Yeah I miss you Said I miss you Yeah I miss you They tell me I daydream But all of my dreams are only you I look through the window And wish I could be with you They say that I'm wasting time But I can't get you off my mind 'Cos I miss you Yeah I miss you Said I miss you Yeah I miss you, yeah Over and over I'm happy to be this way And in the evening I lie on the bed and think of you I hug my pillow And make believe it's really you I don't care what people say I'm happy to be this way 'Cos I miss you Yeah I miss you Said I miss you Yeah I miss you 'Cos I miss you Yeah I miss you Said I miss you Yeah I miss you 'Cos I miss you Yeah I miss you
