

I Was Gonna Cancel

Kylie Minogue

I was gonna cancel
Then I looked it through the sky
Knew the badness won't prevent the sun to shine
I was gonna cancel
Then took a sec to realize
All the disappointment that would trail behind
I was gonna cancel
Then you reminded me of who I am
Everything is clearer
Then a mirror is to a woman, just the same as a dog is to man

Just hop off of the bed
Don't have place a thing
Who gets what you know
Don't let that in the window way
Shut out all it down
Just get up and go
One time the other side
You will never know unless you go go go go

I was gonna cancel
Then I thought about the strength that I got from all of the pr
eys and what it mean
I was gonna cancel
Then I realized that time is just money and love, watch how you
spend
I was gonna cancel
Until you reminded me of what I do
Now I see it clearer
My best friend is a mirror, look by me, and I see all the thing
s I've been through

Just hop off of the bed
Don't have place a thing
Who gets what you know
Don't let that in the window way
Shut out all it down
Just get up and go
One time the other side
You will never know unless you go go go go
