

# Million Miles

Kylie Minogue

Right in front of your eyes  
Why can't you see me?  
Can't you read all the signs  
Why can't you feel it?

Give me love just a little bit harder  
My heart's beating to this drum  
It hasn't even started  
But I know that is love

'Cause I feel like I'm a million, million  
Feel like I'm a million miles away  
Feel like I'm a million, million  
Feel like I'm a million miles away  
When you touch my body  
I go weak but you're so hard for me to reach  
Feel like I'm a million, million  
Feel like I'm a million miles away

Feels like I'm going crazy  
Cause I'm always craving your touch  
My daydreams are amazin'  
Oh, boy, you're never too much

Give me love just a little bit harder  
My heart's beating to this drum  
It hasn't even started  
But I know that is love

'Cause I feel like I'm a million, million  
Feel like I'm a million miles away  
Feel like I'm a million, million  
Feel like I'm a million miles away  
When you touch my body  
I go weak but you're so hard for me to reach  
I Feel like I'm a million, million  
Feel like I'm a million miles away

I feel so invisible why can't you see me?  
Your the one that I want it's so clear to me.  
I feel so invisible.  
I feel so invisible.  
I feel so...  
I feel so...  
I feel so...

I feel like I'm a million, million,  
feel like I'm a million miles away.  
Feel like I'm a million, million,  
feel like I'm a million miles away.  
When you touch my body I go weak  
But you're so hard for me to reach  
I feel like I'm a million, million  
Feel like I'm a million miles away

I feel so invisible I feel a million miles away.  
I feel so invisible I feel a million miles away.

Right in front of your eyes why can't you see me?
