

# Right Here, Right Now

Kylie Minogue

My desire's getting stronger  
I can't hold back any longer  
Next to me you belong  
Now I'm living for the moment  
When you're gonna come on over to me

'Cos I want you to be  
Right here right now I believe  
You were meant to be  
Right here right now  
Right here right now

I can't fight the situation  
I'm giving in to your temptation  
Every time I see your face  
I need you more and more  
When are you gonna come on over to me

'Cos I want you to be  
Right here right now I believe  
You were meant to be  
Right here right now  
Right here right now

'Cos I want you to be  
Right here right now I believe  
You were meant to be  
Right here right now  
Right here right now

'Cos I want you to be  
Right here right now  
'Cos I want you to be  
Now I'm living for the moment  
When you're gonna come over to me

'Cos I want you to be  
Right here right now I believe  
You were meant to be  
Right here right now  
Right here right now...
