## **Right Here, Right Now**

## **Kylie Minogue**

My desire's getting stronger I can't hold back any longer Next to me you belong Now I'm living for the moment When you're gonna come on over to me

'Cos I want you to be Right here right now I believe You were meant to be Right here right now Right here right now

I can't fight the situation I'm giving in to your temptation Every time I see your face I need you more and more When are you gonna come on over to me

'Cos I want you to be Right here right now I believe You were meant to be Right here right now Right here right now

'Cos I want you to be Right here right now I believe You were meant to be Right here right now Right here right now

'Cos I want you to be
Right here right now
'Cos I want you to be
Now I'm living for the moment
When you're gonna come over to me

'Cos I want you to be Right here right now I believe You were meant to be Right here right now Right here right now...
