

## Sexy Love

Kylie Minogue

You should get out of here  
You might've to party for two  
Then you say you leave me  
Got time, it's dangerous  
I want you like I know you want me  
I'mma say it too much  
Right now, feel what you wanting  
You can't make me blush

It's been through that door  
Like you know you find  
Step on my floor  
Like you know you find  
You're on fire  
But you play it cool  
Every eye on you

So don't play me  
Wanting me just too much  
You're sexy  
And watching me this sexy love  
All I see  
Everytime I look at you  
It's you are free  
I just wanna be with you  
Give me that sexy love  
You look so sexy, so sexy in my head  
You look so sexy, so sexy in my bed  
You look so sexy, so sexy in my head  
You look so sexy, so sexy in my bed

We got places to go  
There's so much I wanna see  
Let's make out on the low  
And vis-for-vis on this  
I want you to feel like you're having the time of your life  
I can't wait to start like you're waiting, accept my invite

It's been through that door  
Like you know you find  
Step on my floor  
Like you know you find  
You're on fire  
But you play it cool  
Every eye on you

So don't play me  
Wanting me just too much  
You're sexy  
And watching me this sexy love  
All I see  
Everytime I look at you  
It's you are free  
I just wanna be with you  
Give me that sexy love  
You look so sexy, so sexy in my head  
You look so sexy, so sexy in my bed

You look so sexy, so sexy in my head  
You look so sexy, so sexy in my bed
