

# Time Will Pass You By

Kylie Minogue

Don't let it pass you baby  
Don't let it pass you baby  
Don't let it pass you baby  
Don't let it pass you baby

Passing seasons over fade away  
Into misty clouds of autumn grey  
As I sit here looking at the street  
Little figures, quickly moving feet

I'm just a pebble on the beach and I  
Sit and wonder why  
Little people running around  
Never knowing why

Life is just a precious minute baby  
Open up your eyes and see it baby  
Give yourself a better chance  
Because time will pass you  
Right on by, right on by

This big old world is spinning like a top  
Come and help me while we make it stop  
All you have to do is live for now  
Come along with me, I'll show you how

Take my hand, I'll show you how to live  
Why wait until tomorrow?  
Take my hand, I'll lead the way  
To a brighter day

Life is just a precious minute baby  
Open up your eyes and see it baby  
Give yourself a better chance  
Because time will pass you  
Right on by, right on by

Don't let it pass you baby  
Don't let it pass you baby  
Don't let it pass you baby  
Don't let it pass you baby

No, no  
Oh baby

Life is just a precious minute baby  
Open up your eyes and see it baby  
Give yourself a better chance  
Because time will pass you by

Life is just a precious minute baby  
Open up your eyes and see it baby  
Give yourself a better chance  
Because time will pass you  
Right on by, right on by

Don't let it pass you baby

Don't let it pass you baby  
Don't let it pass you baby  
Don't let it pass you baby
