

# Too Much

Kylie Minogue

Got to have it  
It's like a shock wave to my brain  
To get it together  
I'd have a headful to explain  
It gives me a funny feeling  
I gotta find out if it's true  
I'd give you the answer baby  
I don't know what we're going through  
It's too much

It's too much

It's too much this kind of love  
For the first time  
For the first time  
It's way too much this kind of love  
Not the last time  
Not the last time

When you read my body  
Can you touch my mind  
Will we make it happen  
Each and every time  
They say it doesn't happen  
But lightning struck twice  
First one got me hot  
The next was cold but nice  
Push me to the brim  
And you fill me to the brink  
I can't function, I can't think  
It's too much

It's too much this kind of love  
For the first time  
For the first time  
It's way too much this kind of love  
Not the last time  
Not the last time

I can't say  
I can't say what it is  
If I say what I feel it's too much

It's too much this kind of love  
For the first time  
For the first time  
It's way too much this kind of love  
Not the last time  
Not the last time

It's too much  
The way I think about you  
It's too much  
The way I feel about you  
It's too much
