

## Where Is the Feeling?

Kylie Minogue

There's nobody better, better than you  
You make me feel happy  
Happy, happy to know you

But where is the feeling?  
The feeling of security  
When we're not together  
Tell me everythings gonna be alright  
It's just no use, can't get over you

Anytime you want me to  
I can make you happy (I can make you happy)  
There ain't nothing I wouldn't do (anytime)  
To make you happy

Anytime you want me to  
I can make you happy (I can make you happy)  
There ain't nothing I wouldn't do (anytime)  
To make you happy

Tell me Im crazy  
Maybe since you've been gone  
They don't understand that together  
Together we're one

But where is the feeling?  
The feeling of security  
When we're not together  
Tell me everythings gonna be alright  
It's just no use, can't get over you

Anytime you want me to  
I can make you happy (I can make you happy)  
There ain't nothing I wouldn't do (anytime)  
To make you happy

Anytime you want me to  
I can make you happy (I can make you happy)  
There ain't nothing I wouldn't do (anytime)  
To make you happy

When we're not together  
Tell me everything's gonna be alright  
When we're not together  
Tell me everything's gonna be alright  
When we're not together  
Tell me everything's gonna be alright  
When we're not together  
Tell me everything's gonna be alright  
When we're not together  
Tell me everything's gonna be alright  
When we're not together  
Tell me everything's gonna be alright  
When we're not together  
Tell me everything's gonna be alright

Anytime you want me to  
I can make you happy (I can make you happy)
