

Where Is the Feeling?

Kylie Minogue

There's nobody better, better than you
You make me feel happy
Happy, happy to know you

But where is the feeling?
The feeling of security
When we're not together
Tell me everythings gonna be alright
It's just no use, can't get over you

Anytime you want me to
I can make you happy (I can make you happy)
There ain't nothing I wouldn't do (anytime)
To make you happy

Anytime you want me to
I can make you happy (I can make you happy)
There ain't nothing I wouldn't do (anytime)
To make you happy

Tell me Im crazy
Maybe since you've been gone
They don't understand that together
Together we're one

But where is the feeling?
The feeling of security
When we're not together
Tell me everythings gonna be alright
It's just no use, can't get over you

Anytime you want me to
I can make you happy (I can make you happy)
There ain't nothing I wouldn't do (anytime)
To make you happy

Anytime you want me to
I can make you happy (I can make you happy)
There ain't nothing I wouldn't do (anytime)
To make you happy

When we're not together
Tell me everything's gonna be alright
When we're not together
Tell me everything's gonna be alright
When we're not together
Tell me everything's gonna be alright
When we're not together
Tell me everything's gonna be alright
When we're not together
Tell me everything's gonna be alright
When we're not together
Tell me everything's gonna be alright
When we're not together
Tell me everything's gonna be alright

Anytime you want me to
I can make you happy (I can make you happy)
There ain't nothing I wouldn't do (anytime)

To make you happy

Anytime you want me to
I can make you happy (I can make you happy)
There ain't nothing I wouldn't do (anytime)
To make you happy

Anytime you want me to
I can make you happy (I can make you happy)
There ain't nothing I wouldn't do (anytime)
To make you happy

Anytime you want me to
I can make you happy (I can make you happy)
There ain't nothing I wouldn't do (anytime)
To make you happy
