

# White Diamond

Kylie Minogue

I know that it's getting too much, baby  
But you don't need the words to say  
Sometimes you feel you're at the end of the line  
But tonight it's gonna fade away

You're looking out from the darkness  
Feeling so alone and you need a flare  
Well, I've got the light that's gonna treat you right  
And illuminate what's already there

Understand I will be there for you  
Understand I'm a diamond for you  
A white diamond for you

And just like a burning radio I'm on to you  
Your spell I'm under  
In the silver shadows I will radiate  
And glow for you

What you see and what it seems  
Are nothing more than dreams within a dream  
Like a pure white diamond  
I'll shine on and on and on

Where I'm gonna take you now  
Every tear will look out of place  
Well, I thought about it but it took until now  
To crystallize it into a phrase

Understand I will be there for you  
Understand I'm a diamond for you  
A white diamond for you

And just like a burning radio I'm on to you  
Your spell I'm under  
In the silver shadows I will radiate  
And glow for you

What you see and what it seems  
Are nothing more than dreams within a dream  
Like a pure white diamond  
I'll shine on and on and on and on
