

Live Forever

Kym Marsh

I see you hurting baby
what can I do to ease your mind
there's nothin left here baby
nothin left for us to find

but I hope that someday
you will find that someone
you can stay with until the end

and u always be with me in my imagination
1 last look b4 you roll out from the station
say you'll always be my friend
at least let us pretend
that this is not the end
it's alright
we'll live forever here tonight

the train is leaving baby
and I'm gonna miss u so
no point in grieving baby
it's time to let go

and I know that someday
you will find that someone
who can stay with until the end

and u always be with me in my imagination
1 last look b4 you ..roll out from the station
say you'll always be my friend
at least let us pretend
that this is not the end
it's alright
we'll live forever here tonight

and maybe you'll see me again
in this life
somewhere far away country
somewhere beautiful night
just look for me there
that's where I'm gonna be
where I'll be

and u always be with me in my imagination
1 last look b4 you ..roll out from the station
say you'll always be my friend
at least let us pretend
that this is not the end
it's alright
we'll live forever here tonight
