

## Space Cadet

Kyuss

I'm standing alone on the cliffs of the world.  
No one ever tends to me.  
Sitting alone, covered in rays.  
Some things are so my mind can breath

Waiting is hard  
Fucking takes so long  
Draped in sun - hands in sand  
Earth acid cleanses me, cleanses me clean  
But the world, it never comes

It never comes  
It never comes  
It never comes

I lay on my side in the edge of the room  
She never expects anything from me  
Gone are the days - the days of naive  
I know I'll miss that part of me.

Waiting is hard  
Fucking takes so long  
Draped in sun, hands in sand  
Earth acid cleanses me, cleanses me clean  
But the world it never comes

It never comes  
It never comes  
It never comes  
It never comes  
It never comes
