

Good Thing

L.A. Guns

Well it's a good thing I kissed you when I did
I like the sexy way your fingers slid
And anything done became undid
Wait a minute honey I think we should video

No no no got to give it to me
No no no coz' I need it you see

It's a good thing
Talking about a good thing, yeah
It's a good thing
Nothing but a good thing, yeah

It's a good thing you called me when you did
The pressure building up upon my lid
And on to your back I watched you slid
Gotta tell you honey I wish they were all like you

No no no got to give it to me
No no no coz' I need it you see

Well it's a good thing I kissed you when I did
I like the sexy way your fingers slid
And anything done became undid
Wait a minute honey I think we should video

No no no got to give it to me
No no no coz' I need it you see
