

I Won't Play

L.A. Guns

I won't play, so long, bye bye
I won't play, so long, bye bye

I'm wondering if my main man
Got back with the goods from the mainland
And if he couldn't make it
I surely would not want to play that
Talking about the red gear
Don't wanna hit the skids

I won't play, so long, bye bye
I won't play, so long, bye bye

And I've been on the wagon for two months
And it's enough to make a mad man
I feel my stomach bursting
Just thinking my connection has lost it
Talking about the red gear
Don't wanna hit the skids

I won't play, so long, bye bye
I won't play, so long, bye bye
(Oh!)

I'm wondering if my main man
Got back with the goods from the mainland
And if he couldn't make it
I surely would not want to play that

And I've been on the wagon for two months
And it's enough to make a mad man
Just feel my stomach bursting
Thinking my connection has lost it

I won't play, so long, bye bye
I won't play, so long, bye bye
I won't play, so long, bye bye
I won't play, so long, bye bye
