

## Malaria

L.A. Guns

Somewhere from another time  
Asiatic death  
Yellow fever bodies writhe  
Sugar on my breath  
Is this the final curtain  
I don't believe what's happening  
She hides behind a veil of tears  
Plays upon my darkest fears yea

She's malaria  
She's malaria

Swamp fever  
Water black as mud  
Strength fading  
Demon hold  
Hungry 4 my blood

So desperately I cling 2 life  
Pain I know I must survive  
Entity  
I see the eyes I can't forget  
Caught between this world and the next  
Misery

She's malaria  
She's malaria  
She's malaria
