

Wild Obsession

L.A. Guns

With your long black hair
Fallin' down your face
Red lips and lethal pout
Send me to heaven
Seein' is believin'
Baby, you're so strange
Something about you makes me sweat
When I call your name

Oh oh oh oh
Goin' nowhere
Oh oh oh oh
Gettin' further out of control

Wild obsession in the heat of the night
Wild obsession and baby you know it ain't right

She's got the sun and the moon in a velvet glove
Showers of diamonds fall from high above
She's a vicious queen
She's a little girl
I know she's a cornerstone of the underworld

Oh oh oh oh
Goin' nowhere
Oh oh oh oh
Gettin' further out of control

Wild obsession in the heat of the night
Wild obsession and we both know it ain't right
Wild obsession runnin' beneath the neon stars
Wild obsession tearin' us all apart

Oh oh oh oh
Goin' nowhere
Oh oh oh oh
Gettin' further out of control

Wild obsession in the heat of the night
Wild obsession and we both know it ain't right
Wild osession
Wild obsession tearin' us all apart
