With your long black hair
Fallin' down your face
Red lips and lethal pout
Send me to heaven
Seein' is believin'
Baby, you're so strange
Something about you makes me sweat
When I call your name

Oh oh oh oh
Goin' nowhere
Oh oh oh oh
Gettin' further out of control

Wild obsession in the heat of the night Wild obsession and baby you know it ain't right

She's got the sun and the moon in a velvet glove Showers of diamonds fall from high above She's a vicious queen She's a little girl I know she's a cornerstone of the underworld

Oh oh oh oh
Goin' nowhere
Oh oh oh oh
Gettin' further out of control

Wild obsession in the heat of the night Wild obsession and we both know it ain't right Wild obsession runnin' beneath the neon stars Wild obsession tearin' us all apart

Oh oh oh oh
Goin' nowhere
Oh oh oh oh
Gettin' further out of control

Wild obsession in the heat of the night Wild obsession and we both know it ain't right Wild osession Wild obsession tearin' us all apart
