

## The Bomb

L7

Plastic people with their plastic lives  
Plastic lips tell plastic lies  
Plastic drivers in plastic cars  
Plastic food from plastic jars  
Frustration is the fuse  
The flame is hate  
Tick tick tick  
Detonate  
She's the bomb  
Plastic models in plastic magazines  
Plastic kings and plastic queens  
All are seen on plastic tvs  
Prayed to by people on bended plastic knees  
What you think, well that's good too  
But not as much as what do you do  
This fuse burns slow  
Waiting to blow  
The world is a heavy load  
Watch it explode  
Lawmakers with plastic policies  
Put plastic locks on their cities  
In hopes to keep them quiet  
Well go off  
Well blow up
