

Do You Still Need Me

La Bouche

You wouldn't leave me, not for a moment
But when your sleeping, you don't reach out to hold me tight
I'm a fool for those things like you still need me
Do you still love me, is it love anyway
You live in you world, and I can't follow
If you still need me, then I wish I could hear you say
I'm a fool for those things like you still love me

(What ya gonna do)
(What you gonna do)
(What you gonna do)
(If I can't tell you) I can't tell you
(What ya gonna do)
(What ya gonna do)
(What ya gonna do)
If I run away

Do you still need me, do tears cloud my mind
Sometimes I wonder, just where were heading
I can remember, those we had were the best of times
I'm a fool for those things like you still need me

I'll never go never go 'till I hear you say

Do you still need me, like you did the first time
You wouldn't leave me, not for a moment
Where are your kisses, that would keep me awake all night
I'm a fool for those things like you still need me
Do you still love me, was it love anyway
You live in you world, and I can't follow
If you still need me, then I wish I could hear you say
I'm a fool for those things like you still love me

Do you still need me
