

# I Love To Love

La Bouche

I love to love, I love to love you  
So much I want to share and do  
Oh, oh, oh

I love to love, I love to love you  
I wanna find a way to you  
I'll tell you a secret

I'll make you mine for the rest of our future  
I'll make you mine 'cause you know that I need ya  
I'll give you love and I'll give you satisfaction  
This is the way that it is, that it is

You know that loving has a little tempo  
Just like the music nothing but a stop and go  
And if you like I will be around  
I'll tell you a secret, oh, oh, oh

I love to love, I love to love you  
So much I want to share and do  
Oh, oh, oh  
I love to love, I love to love you  
I wanna find a way to you

If I had a dream tonight  
I'd dream that I'd be with you  
If I had a wish tonight  
I'd wish that you'd love me too  
I'll tell you a secret  
I'll tell you a secret  
I'll tell you a secret

Another woman and another night  
Another time that you wanna cry  
Another day that you feel alone  
This is the way that it is, that it is

You need a love a lovin' that is sentimental  
Not only sex, 'cause your heart is gentle  
And if you like I will be around  
I'll tell you a secret, oh, oh, oh

Love to love that's what I do  
Love to love it's me and you  
Love to love my heart's desire  
Girl let me set your soul on fire  
If I had one wish tonight  
I'd kiss and hog and hold you tight  
All we need to sail away  
Is peace and love, a brand new day  
So, twinkle, twinkle little star  
Girl I wonder who you are  
Up above the clouds so high  
Like a diamond in the sky  
So surreal with much appeal  
You know the deal, it must be real  
Love for love, girl take a cue

Love to love, it's me - and - you
