

# The Heat Is On

La Bouche

The heat

Another starry night in September,  
Another chance for romance,  
And one more time for me to surrender,  
To put myself in a trance.

The heat is on

We're gonna make tonight last forever,  
And leave all our troubles behind,  
Let's "let's beat the clock let's do it together"  
I'll show you what's on my mind.  
The heat is on

Another starry night in September,  
Another chance for romance,  
And one more time for me to surrender,  
To put myself in a trance.

The heat is on

The heat is on
