

Tonight Is The Night

La Bouche

Tonight is a night, is a night of love
Forever and ever is never enough
Tonight is a night, is a night of love
Together, forever, I can't get enough
Come with it man, ohh, hup

Hold me, hold me
You squeeze me, squeeze me
Yes, come a ready loving
'Cause you know its not easy

Hold me, hold me
Yes love a me, love me
Yes, come a ready music
Come, we see nobody

Yes, run, come give me lovin'
Come, a give it to me
But a when you give me lovin'
Give me physically

And anything we do
We do it naturally
Say, come and make me do it
Then we see no party

Tonight is a night, is a night of love
Forever and ever is never enough
Tonight is a night, is a night of love
Together, forever, I can't get enough

Ohh, give me tonight for love
I just can't get enough
Ohh, give me tonight for love
Too much is not enough
Come down with it man, ohh hup
(It's going by too)

Now that you've got my lovin'
Together we can make it
Don't anybody try to stop
And people try to break it

Come with the boys I met with last
They're in a harmony
(I like that)
Your love is what I want
And yes you give it to me

Yes hataya, hataya
Come with the boys, don't stop it
Hataya, hataya
Yes my love, I've got to

Hata, come with the disco mix
With stop a band, he goes
Say, come baby girl

Down here on the floor
And take me with your love

Tonight is a night, is a night of love
Forever and ever is never enough
Tonight is a night, is a night of love
Together, forever, I can't get enough

Ohh, give me tonight for love
I just can't get enough
Ohh, give me tonight for love
Too much is not enough

I just can't get enough
I just can't get enough

I just can't get enough
I just can't get enough

Tonight is a night, is a night of love
Forever and ever is never enough
Tonight is a night, is a night of love
Together, forever, I can't get enough
