

## I Promise You

La Sera

You're so far away from me now but it wont be long  
In one months time i'll call you mine like I was never gone  
I won't ever let you go, you'll get sick of me soon  
I promise you  
I'll write you a song a day until I get you back  
Count the ways that I love you it's so hard to keep track  
I won't ever let you go, you'll get sick of me soon  
I promise you
