

No One Is Completely Faithful

Laakso

No one is completely faithful
At least I don't know no one that is
No one is completely faithful
At least I don't know no one that is

She sleeps with her boyfriend's father
The man does everyone except your mother
The one you thought it was ain't your daddy
And your German uncle killed a jew in world war two

No one is completely faithful
At least I don't know no one that is
No one is completely faithful
At least I don't know no one that is

The giant wave took your baby away
Before you had the chance to say
That you betrayed her with another
It's far from ok but you're not the only one cause

No one is completely faithful
At least I don't know no one that is
No one is completely faithful
At least I don't know no one that is
