

Chocolate

LAB

You're sweeter than the sweets you brought
I melt like chocolate on your palm

You're as sweet as you're touching
You're everything I'm seeing
My every thought is all about you
You're everything I fear: you're my every dream

My heart believes your every smile
My brain says I am infantile

you're as sweet as you're touching
You're everything I'm seeing
My every thought is all about you
You're everything I fear -
My every mood is all about you
You're everything I'm feeling
My every thought is spinning around you
You're everything I fear: you're my every dream

I'm liquid chocolate...
