

## Chocolate

LAB

You're sweeter than the sweets you brought  
I melt like chocolate on your palm

You're as sweet as you're touching  
You're everything I'm seeing  
My every thought is all about you  
You're everything I fear: you're my every dream

My heart believes your every smile  
My brain says I am infantile

you're as sweet as you're touching  
You're everything I'm seeing  
My every thought is all about you  
You're everything I fear -  
My every mood is all about you  
You're everything I'm feeling  
My every thought is spinning around you  
You're everything I fear: you're my every dream

I'm liquid chocolate...
