

# I Used To Hide

LAB

Every time I close my eyes  
I'm alone inside my mind  
Every breath I breathe is mine

Every time I go outside  
I'm afraid one day I might  
No more make it back inside

Suddenly you changed my mind: I used to fake I used to hide  
Every time you're by my side I never fake I never hide

Now you're here and read my mind  
Say I'm different, but all right  
Help me find I'm safe outside
