

I Used To Hide

LAB

Every time I close my eyes
I'm alone inside my mind
Every breath I breathe is mine

Every time I go outside
I'm afraid one day I might
No more make it back inside

Suddenly you changed my mind: I used to fake I used to hide
Every time you're by my side I never fake I never hide

Now you're here and read my mind
Say I'm different, but all right
Help me find I'm safe outside
