

# Atomic

## Labrinth

Daydreaming while the rest of the world's awake  
I always knew I didn't belong here  
People told me I was different  
I guess I was afraid of the concept  
But once you learn to embrace who you are  
Things can get real ugly  
Go!

What's my name?  
What's my name, I don't need no intro  
Pass the dutch,  
Dim the lights and tell Sally I'm gone  
Fuck a mic I need a stone right now  
See your life's about to drop  
I'm gonna party like I did take the paint in the town  
And someone just pissed in my..

It's gonna be a fucking atomic explosion (2x)

[Verse 2: Labrinth]  
Odd job, got bangers all day  
You fuckers don't seem to listen, smash hits on the radio  
Do I need to say any more? Just pay me, uh  
Plenty bitches replicating what I made before  
So Hail Mary, while you get buried  
You think you could come near me, you handed the card clearly  
You fuck with the same game while I'm I'm popping a new cherry  
Plan B tell tell these rudebois coz they don't hear me

Say hey Lord,  
Look at me still going hard  
All I needed was a little vacation  
But I'm back now to do my job  
Fuck the glitz and glamour, that shit just doesn't matter  
I refuse to talk about it while I'm spitting on this banger  
And I refuse to talk 'bout money, no one's rich up in my manor  
They don't find that shit too funny, specially if they in the slammer  
I spit for the youth the whole youth, and nothing but the youth  
I might be getting old but I still care about the truth  
So while we're on the topic, I'mma treat it like a fucking bomb  
And drop it

It's gonna be a fucking atomic explosion

I'm a loose cannon, enter the dragon  
Got the mic in my hand, it's about to do damage, clear  
Fire in the hole, Fire Fire in the hole,  
Fire Fire in the hole  
Listen I'm a loose cannon, might see your bitch vanish  
Got the mic in my hand, it's about to do damage, clear  
Fire in the hole, Fire Fire in the hole  
Fire Fire in the hole

It's gonna be a fucking..  
It's gonna be a fucking..

Daydreaming while the rest of the world's awake

I always knew I didn't belong here  
People told me I was different  
I guess I was afraid of the concept  
But once you learn to embrace who you are  
Things can get real ugly
