Let the Sunshine

I feel a cold flush going through my hair and hey you know what I dont even care the time has passed me by its gone with the wind its only cus the sun shined once again now the party's on everybody's there and if you dont know anyone you'll still meet some new friends that's the way it is when I have myself a drink its only cus the sun shines once again Let the sun shine let the sun shine baby let it all go

let it all go baby let the sun shine let the sun shine baby let it all go let it all go baby

So turn the lights off aint no one afraid when the night comes it'll be just like the day and without the day I am glowing from within only cus the sun shined once again so play that sweet tune play it through the air and the volume blaze it up dont you ask me twice you know I'm gonna bid only cus the sun shined once again

Let the sun shine let the sun shine baby let it all go let it all go baby let the sun shine let the sun shine baby let it all go let it all go baby

I know that the world is gonna smile again when we go from the darkness into the light ohhh let the sun shine let the sun shine

Let the sun shine let the sun shine baby let it all go let it all go baby
