

# Treatment

Labrinth

(oh baby, hoh-oh baby)  
(oh baby, hoh-oh baby)

Cowgirl, cowgirl why did you leave me high and dry?  
You had a heart but then you put a hole in mine

Listen - I wanna break down  
You don't understand the damage you've done now  
Let me remind you that  
I had a heart and you came inside  
Turned the whole place upside down

Now I'm out of my mind  
Rocking chair, mental asylum  
Everyone dressed in white  
I really think I've lost it this time

Yeah, I wanna break down  
You don't understand the damage you've done now  
Let me remind you that boys don't cry  
Isn't it clear that I need treatment?

(oh-oh baby, hoh-oh baby)  
(oh-oh baby, hoh-oh baby)

All day, all night see I could go from dusk til dawn (whoah)  
Thinking about how you left me crushed and torn (whoah)

I wanna break down (come on)  
You don't understand the damage you've done now (come on)  
Let me remind you that (uh huh)  
I had a heart and you came inside  
Turned the whole place upside down

Now I'm out of my mind  
Rocking chair, mental asylum  
Everyone dressed in white  
I really think I've lost it this time

Yeah, yeah, I wanna break down (uh huh)  
You don't understand the damage you've done now (uh huh)  
Let me remind you that boys don't cry  
Isn't it clear that I need treatment?

Cause I'm insane in the membrane, so crazy, you make me, yeah  
Insane in the membrane, look what you've created

Look what you did  
Look what you did  
My baby, oh, no, no  
Isn't it clear that I need treatment?  
Treatment

Woah oh oh oh

Now I'm out of my mind  
Rocking chair, mental asylum

Everyone dressed in white  
I really think I've lost it this time

Yeah, yeah, I wanna break down  
You don't understand the damage you've done now  
Let me remind you that boys don't cry  
Isn't it clear that I need treatment?
