I Feel You

Labyrinth

My old words and new dreams Without taste or ideas And your eyes make me scream And my fear disappears Oooh, there is Noocoo true love, oooh I feel you Soft music is moving so lightly A world that's exploading inside me I feel you Emotion is coming so brightly Your heartbeat is pounding around me Mi ami o no? Mi ami o no? Mi ami... A sweet memory of you And a song on the way And the shadows of truth Are flying away Oooh, there is Noocoo true love, cooh I feel you A beautiful lonely old statue Don't leave me, you need me, come closer I feel you Lost island somewhere in the ocean Two lovers are playing their first game Mi ami o no? Mi ami o no? Mi ami o no? I feel you Strange visions are changing the desert A wind full of dust wants to blind me I feel you A taste of the wild love inside me I'm dying to meet you Mi ami o no? Mi ami o no? Mi ami o no? I feel you I'm dying to meet you
