

# Smoke And Dreams

Labyrinth

The twilight  
Brings me hope and heat  
Even if you're not here

Remember  
What we've shared 'til now, it's a precious gift

Now you're far from me  
Behind a curtain of smoke and dreams

I never wasted all in words  
But I guess you know

Everytime you say 'love ya'  
I forget my pain, no more falling rain

I can see your eyes  
Behind a curtain of smoke and dreams

No matter where you are  
Always in my heart

As a shadow I'll be close to you  
Through good and bad days looking after your steps  
An embrace coming from my soul  
Everywhere you'll feel a little of me

As a shadow I'll be close to you  
Through good and bad days looking after your steps  
An embrace coming from my soul  
Everywhere you'll feel a little of me

A little of me

As a shadow I'll be close to you  
Through good and bad days looking after your steps  
An embrace coming from my soul  
Everywhere you'll feel a little of me
