

## My Velvet Little Darkness

Lacrimas Profundere

You give me substance  
You give me cold hands  
Our love is just more than just alone  
And when you want me  
Everything should be  
Only for our wicked ebony

You always said to me  
That it's dark in your heart  
And I should believe  
That you won't be here for years

What I want is impossible to be  
You will deny me once in a while  
It's velvet but it's untrue

You give me my lust  
And you are my frost  
I hate what you do but can't resist  
To your sweet charming  
And always harming  
Cold little embrace  
It's what I need

You give me cold hands  
You give me a sweet dread  
I'm sure I miss you
