

# The Fear Of Being Alone

Lacrimas Profundere

Laugh at me  
For everything I'm not  
Lie to me  
With every tear you drop  
All we do is sleep  
Why we cannot end?  
A sin is what we need

Will I ever arise  
From your cold arms again  
Will you ever be mine  
And I'll beg my lies to end  
Lying here with fear of being alone  
Loneliness is my home  
Be my bride before everything turns black

Bury me  
With everything I've got  
Spit on me  
After I've been shot  
Your lies cannot fade  
It's never gonna mend  
It's over but I stay
