## **Apart - Bittruf Part 1**

```
So - you - said - that
I - shall - try - to go on
I've seen your eyes
They shined like stars to me
And then I saw your soul
An empty hall
Kissing you was like
Kissing the past
I felt like giving in
I felt like
Being a part of something
Something I was always
trying to achieve
I felt like
Being a part of something
Something that lasts
I've seen your ways
They sometimes took me
By surprise
And then I saw your aim
A ... lunatic
Touching you was like
Touching a flame
I felt like giving in
I felt like ...
```

And I need love Like I never needed love before ...
