

# I Lost My Star in Krasnodar

Lacrimosa

Something else was in this place  
Something I will never meet again  
Something we will always think of  
I saw the glance in your eyes  
Before it disappeared  
And I saw the disillusion in your eyes  
Your terrible confusion  
I killed a star in Krasnodar  
I didn't see the death between my lips  
I'm sorry for the things I said - and did not say

I am - I'm not afraid  
I am - I'm not afraid of you

So I was blind for what I saw  
So I was deaf for what I heard  
I lost a star in Krasnodar  
So I am cold to what I felt  
So I am dead for I'm alive  
I lost a star in Krasnodar  
In Krasnodar

Shine - shine - shine - my star  
Shine - shine - wherever you are

You are not here in this place  
For I know we will not meet again  
Therefore I will always think of you  
Why can't you just see:  
I am no alien - don't you know?  
I am as black as white  
Always the one who's fighting for  
Someone to hold  
I killed your smile  
I killed your belief  
I killed the star of Krasnodar  
I'm sorry for the things i did - and did not do

So I was blind for what I saw  
So I was deaf for what I heard  
I lost a star in Krasnodar  
I lost my star  
So I am cold to what I felt  
So I am dead for I'm alive  
I lost a star in Krasnodar  
In Krasnodar

Shine - shine - shine - my star  
Shine - shine - wherever you are
