

## Make it end

Lacrimosa

Listen to the silence  
Hear your blood running  
Search for the truth  
Hear the silence  
Memories that made you mad  
Hear, oh hear inside the fear  
How different  
Is this burning  
Giving everything  
And not finding back

Make it end  
Don't force to suffer any more  
No more empty promises  
You go to find the truth for yourself  
And accept it!  
Make it end  
No more degrading excuses  
You go to -  
Rise your weak wings  
If only for a day

I've watched your purple blood running  
Tasted the bitter taste of dying ambitions  
Then the shadows in your eyes  
How could you - loose the emotion  
Of beeing alive?  
Without hesitation  
You stopped existing  
Against your own will

Exit and escape  
Gather the separated parts  
Solve the puzzle and survive  
Trust in yourself  
You may also be weak -  
Shattered emotions  
When you watch behind the masks  
No wasted words for the trusted ones  
When they'd all let you down
