

# Fire

Lacuna Coil

Let the fire enter you  
Let the anger start to pull  
Let your instincts break the rules  
Let it rise and rise in you

This figure outside  
Burn this town  
You say it on my face  
Gonna pitch you down

I leash the rage  
Trapped inside  
I am burning  
Let the fire enter you

Let the fire enter you  
Let the anger start to pull  
Let your instincts break the rules  
Let it rise and consume  
Get into yourself

You started this fight  
Face me down  
My agreement in rush  
Is all in down  
Take your place under fire  
In line you'll be burning

Let the fire enter you

Let the fire enter you  
Let the anger start to pull  
Let your instincts break the rules  
Let it rise and consume  
Get into yourself  
Let the fire enter you  
Let the anger start to pull  
Let your instincts break the rules  
Let it rise and consume

You're underground  
Not much fight  
Compassion is gone  
I'm still fine  
So take my reach and join the ride  
Feel the hurting

Let the fire enter you  
Fire enter you  
Fire enter you

Let the fire enter you  
Let the anger start to pull  
Let your instincts break the rules  
Let it rise and consume you  
Let the fire enter you  
Let the anger start to pull

Let it rise and consume  
Everything you do  
Get into yourself
