

Kill the Light

Lacuna Coil

Hold me
Teach me
Tell me what to do
But I'm not looking for a guide
I can't stand the light of today outside
Feeling so cold inside your shadow

Watch me when I'm falling down
Step aside don't ask why
Let me down hit the ground
Betcha smile deep inside

When I'm lost
And don't know what to do
You run away from me
But you'll never kill the light inside me

Now or never
Can you feel this loss?
Please let these memories just fade
Time will heal the rain
But sometimes it hurts
I want to shine outside your halo

I will feel the sun
Come back upon my face
The light outside the darkness
Is not too far away
Not far away from the nothing
I only want to escape
'Cause you can't kill the light inside of me
Inside myself

I don't know what to do
When you run away from me
But you'll never kill the light inside me
