

# Veneficium

Lacuna Coil

Nova vis ad diem novum nascitur  
Penitus veneficium versatum revincitur

Nova vis ad diem novum nascitur  
Penitus veneficium versatum revincitur

Nova vis ad diem novum nascitur  
Penitus veneficium versatum revincitur

I'm unmoving like a stone  
This silence screams so cold  
I wish I was so far from here  
But now  
I think we need to talk  
Sit right in front of me  
The dream we had has come to an end

I would destroy my own life  
To consume your soul  
And smile  
But I'm locked into your world  
Again

Here I come  
To show you all the wounds  
Inside my heart  
But it's all in vain  
Here I come  
I know  
That it will never be the same

Now  
I need to be alone  
I spin out of control  
We're trapped inside the dream again  
Look now  
What we have become  
You're like a parasite  
Infecting me until the end

There was a time  
We looked down from the clouds  
We climbed sky high  
Thought that we would never fall  
How come you didn't even try?  
Was it harder to fight than to let me go?

Here I come  
To show you all the wounds  
Inside my heart  
As I take the blame  
Here I come  
I know  
That it will never be the same

Nova vis ad diem novum nascitur  
Penitus veneficium versatum revincitur

Arise  
Inside of you  
Defeat again

Nova vis ad diem novum nascitur  
Penitus veneficium versatum revincitur

Here  
I want to start again  
Keep learning day by day  
Forget the fear and feel free at last  
'Cause now  
I'm closer to the edge  
I'm afraid to see what I became  
I know that it will never be the same

Here I come  
Knowing I will never be the same

Nova vis ad diem novum nascitur  
Penitus veneficium versatum revincitur

Nova vis ad diem novum nascitur  
Penitus veneficium versatum revincitur
