

# Deep in the night

Ladislav Křížek

Long time ago a legend is born  
Falling stars are coming down  
Once a year all treasures are shown  
That earth was hiding for so long

You've got no right - only fools have a try  
Even the best have passed away  
Don't take no risk - there is no return  
You'll be the loser of the game

I take a chance, I touch the gold  
The angry earth is shaking  
Sometimes dreams are built on sand  
Don't you remember?

Deep in the night  
In a golden cage  
No sign of light  
I'm suffering - can't get away  
I'm crawling on my knees

In the deep - an awful creature  
Like I have never seen it before  
The spiderknight - he shows no mercy  
All the wealth I'd give to escape alive

Look around you've got no choice  
Down in the lair of Kreyson - OOH Kreyson  
No chance to get away  
You better surrender

Deep in the night  
In a golden cage  
No sign of light  
What have I done?

Deep in the night  
In a golden cage  
No sign of light  
I'm wondering is it a dream  
Or is it real life?

Deep in the night  
In a golden cage  
No sign of light  
What have I done tonight?  
Kept in darkness - I'm suffering  
Can't get away - I'm crawling on my knees

This night I feel  
In a cage of gold  
No place to stay  
What have I done?  
Just let me know  
How to find my way back home  
I'm really feeling down  
What have I done?
