

# I Need You

Ladislav Křížek

Schooldays I remember well  
We were walkin' on the playground hand in hand  
Always tryin' to hide my love  
Treatin' you more as a friend  
Long back in time, but I know deep inside  
That I'm still lovin' you - oh, you've got to know -  
You took my heart

Need you, baby my heart's still burnin'  
Need you, baby believe me  
Need you, baby I can't live without you  
Need you, baby - oh baby, I need you so badly

Mourning seems to fade away  
I read between the lines of what you sent to me  
Waitin' at your door I can hear you cryin'  
And I wonder if you ever, ever felt the same  
Will you remember  
There's no way back now - it's up to you, girl

Need you, baby - my heart's still burnin'  
Need you, baby - believe me  
Need you, baby - I can't live without you  
Need you, baby - yes, I need you so

And in your eyes a dream comes true now  
You're lyin' in my arms holdin' me tight  
There is no reason to fall in loneliness again  
Oh, what a feeling - oh, what a feeling

Need you, baby - my heart's still burnin'  
Need you, baby - believe me  
Need you, baby - I can't live without you  
Need you, baby - I need you so badly

Schooldays we remember well  
We were walkin' on the playground hand in hand  
Now we are strong whatever happens  
And I know if I'm cryin', baby  
You will cheer me up  
I need you so - love fills my heart
