Get to Me

Lady Antebellum

The night is high
Got a full moon risin'
And you know this is the time I get a little bit lonely
And I can't fight it, I can't hide it
Don't know where you are
But I want you just like lightning
Shooting straight out of the sky
Come and strike me with your light igniting
Yeah igniting

Gotta get to me
Gotta get to me
You gotta spread your wings and start flyin'
Like a drop of rain
Gotta find a way
Don't hit the breaks just come and crash
Through my horizon
Bring back the air I need to breathe
Baby, you gotta get to me

The bottle is empty
And I'm dancing in the shadow of a memory
Yeah call me crazy
But I still got this schoolgirls dream
You're gonna show up and kiss me
Pull me in, hold me tight
Love me and carry me away
Like there's no more tomorrows
And no more yesterdays

Gotta get to me
Gotta get to me
You gotta spread your wings and start flyin'
Like a drop of rain
Gotta find a way
Don't hit the breaks just come and crash
Through my horizon
Bring back the air I need to breathe
Baby
You gotta get to me

Gotta get to me
Gotta get to me
You gotta spread your wings and start flyin'
Like a drop of rain
Gotta find a way
Don't hit the breaks just come and crash
Through my horizon
Bring back the air I need to breathe
Baby
And get to me

Get to me
Get to me yeah
You gotta get to me

The night is high

Gotta full moon risin'

Gotta full moon risin'
