

Love This Pain

Lady Antebellum

She's no good for me
I know that she's a wild flower
She's got a restlessness
A beautifulness, a thing about her
But here I am again calling her back
Letting her drive me crazy

It's like I love this pain a little too much
Love my heart all busted up
Something 'bout her, we just don't work
But I can't walk away
It's like I love this pain

It's just an on again
And off again situation
It's just striking a match
A tank of gas combination
But here I am again lighting it up
Knowing that she'll just burn me

It's like I love this pain a little too much
Love my heart all busted up
Something 'bout her, we just don't work
But I can't walk away
It's like I love this pain

It's like I love this life
When nothing's right, yeah something's wrong
It's like I'm just not me
If I can't be a sad, sad song

It's like I love this pain a little too much
Love my heart all busted up

Something 'bout her, we just don't work
But I can't walk away
It's like I love this pain
Oh yeah, it's like I love this pain
I can't walk away, oh no
It's like I love this pain
