

# One Great Mystery

Lady Antebellum

I don't know how many stars fill the sky  
I know we're here but I don't know why  
Maybe there's some other life out there  
But as long as you're here with me baby  
I don't really care

There is only one great mystery  
And I keep searching for the answer desperately  
Tell me, tell me baby, tell me please  
What did I ever do  
To make you fall for me

Don't know what happens when we leave this world  
But I know I'll go right on loving you girl  
I'll close my eyes and drift off into the blue  
And if I go first I will wait for you

There is only one great mystery  
And I keep searching for the answer desperately  
Tell me, tell me baby, tell me please  
What did I ever do  
To make you fall for me

I guess I'll never really know  
How I deserve someone that loves me so

There is only one great mystery  
I keep searching for the answer desperately  
Tell me, tell me baby, tell me please  
What did I ever do  
To make you fall for me  
I'll keep asking through eternity  
What did I ever do  
To make you fall for me

What did I do baby?  
Ooh ah
