

# Teenage Heart

Lady Antebellum

We were circus lights and cannonballs  
We were way too high to ever fall  
We were fireflies and shooting stars  
We were burning up from the start  
And we'd say are we gonna live forever?  
I love you to my dying death  
But sometimes hearts get swept up  
In the waves

Remember when the night turned up  
And sun went down  
If just for a moment  
We were falling at the speed of sound  
Yeah, the moon played a part  
Two shadows in the dark  
Beating with a teenage heart  
Beating with a teenage heart

Would I ever recognise your face  
If I saw you in a crowded place?  
Would your hair still fall the way it did?  
Would we laugh and sing like when we were kids, oh

Remember when the night turned up  
And sun went down  
If just for a moment  
We were falling at the speed of sound  
Yeah, the moon played a part  
Two shadows in the dark  
Beating with a teenage heart  
Beating with a teenage heart

Yeah, we thought that we would last forever  
Thought our love would never fade  
Had your hand pressed on the window as you pulled away

Remember when the night turned up  
And sun went down  
If just for a moment  
We were falling at the speed of sound  
Yeah, the moon played a part  
Two shadows in the dark  
Beating with a teenage heart  
Beating with a teenage heart  
A teenage heart  
Ooh, yeah, beating with a teenage heart
