

# Gone Gone Gone

Ladyhawke

I've pulled us another plan  
But it's pulling me into the ground  
We'll be together again  
But only if you'll play along

You're everything I could ever want  
Just save your advice for another girl  
One night inside my head  
And you're gone, you're gone, you're gone  
Two years without a word  
And you're gone, you're gone, you're really gone

I'd never thought you'd be  
The one afraid of me  
I would've set you free eventually  
And now you're out of sight  
I hope you feel alright  
'Cause you're gone, you're gone, you're really gone

I'll never regret a thing  
'Cause my mind is already too gone  
Sleep well, without a care  
I'll only catch you in your dreams

You're everything I could ever want  
Just save your advice for another girl  
One night inside my head  
And you're gone, you're gone, you're gone  
Two years without a word  
And you're gone, you're gone, you're really gone

I'd never thought you'd be  
The one afraid of me  
I would've set you free eventually  
And now you're out of sight  
I hope you feel alright  
'Cause you're gone, you're gone, you're really gone

(You're gone, you're gone, you're gone)  
( 'Cause you're gone, you're gone, you're really gone)

You're everything I could ever want  
Just save your advice for another girl  
One night inside my head  
And you're gone, you're gone, you're gone  
Two years without a word  
And you're gone, you're gone, you're really gone

I'd never thought you'd be  
The one afraid of me  
I would've set you free eventually  
And now you're out of sight  
I hope you feel alright  
'Cause you're gone, you're gone, you're really gone

'Cause you're gone, you're gone, you're gone  
'Cause you're gone, you're gone, you're really gone

(2x)

'Cause you're gone, you're gone, you're gone

('Cause you're gone, you're gone, you're gone)

'Cause you're gone, you're gone, you're gone
