Gone Gone Gone

Ladyhawke

I've pulled us another plan But it's pulling me into the ground We'll be together again But only if you'll play along

You're everything I could ever want Just save your advice for another girl One night inside my head And you're gone, you're gone, you're gone Two years without a word And you're gone, you're gone, you're really gone

I'd never thought you'd be The one afraid of me I would've set you free eventually And now you're out of sight I hope you feel alright 'Cause you're gone, you're gone, you're really gone

I'll never regret a thing 'Cause my mind is already too gone Sleep well, without a care I'll only catch you in your dreams

You're everything I could ever want Just save your advice for another girl One night inside my head And you're gone, you're gone, you're gone Two years without a word And you're gone, you're gone, you're really gone

I'd never thought you'd be The one afraid of me I would've set you free eventually And now you're out of sight I hope you feel alright 'Cause you're gone, you're gone, you're really gone

(You're gone, you're gone, you're gone)
('Cause you're gone, you're gone, you're really gone)

You're everything I could ever want Just save your advice for another girl One night inside my head And you're gone, you're gone, you're gone Two years without a word And you're gone, you're gone, you're really gone

I'd never thought you'd be The one afraid of me I would've set you free eventually And now you're out of sight I hope you feel alright 'Cause you're gone, you're gone, you're really gone

'Cause you're gone, you're gone, you're gone 'Cause you're gone, you're gone, you're really gone (2x)
'Cause you're gone, you're gone, you're gone
('Cause you're gone, you're gone, you're gone)
'Cause you're gone, you're gone, you're gone
